From the Presidents Desk

No doubt you are all starting to come to terms with the disruption that the virus is having on the way you live your lives and the risk to everyone that is very real. The challenge that we all face is how to continue to function as a community and at the same time limit the risk of infection.

Our club faces those same challenges, the club management committee met last night to consider how we can abide with the restrictions placed on us by the different levels of government and still function as a club without jeopardising our member's health and safety.

To this end the Committee has decided that;

1. All club meetings are suspended until further notice.
2. All current club fishing competitions are suspended.
3. Current point scores will remain as they are.
4. A new PhotoComp will be instigated and will run until further notice .
5. The rules for the competition will be provided separate to this notice.
6. The 2020 Challenge has been cancelled and refunds of entry fees is underway.
7. The club Management committee will meet monthly to manage the affairs of the club.

These decisions were not taken lightly or without considerable discussion and I would like to thank the members of the committee for their commitment to ensuring the ongoing viability of our club.

I remember a few years ago there was an advertisement on TV for a popular brand of soap, the catch phrase for the ad was "wash your hands Henry". I can't say I've seen that brand around for a while but I think the message was clear then as it is now. All the best medical advice is to;

WASH YOUR HANDS, WASH YOUR HANDS, WASH YOUR HANDS.

God willing, we will all get through these troubling times safely

Kind regards

Danny
